ANALYSIS REPORT FOR MARKET SURVEY

JEWELRY BOUTIQUE IN WUSE, ABUJA

INTRODUCTION

After successfully conducting a market survey for our jewelry boutique, this report is to uncover the feasibility of opening a jewelry boutique in Wuse, Abuja.

Objective

- Market Demand: Determine if there is need of a jewelry boutique in wuse.
- Consumer Preference: Identify the type of jewelry piece people prefer.
- Pricing Strategy: Find out how much customers are willing spend on a jewelry.
- Business model: Determine if customers prefer order online or visit physical store.

Method & Statistical techniques used

- Measures of central tendency: This was used to describe my numerical data such as price and interest question (Mean, Median, Standard deviation).
- Measure of Frequency: This was used to describe my categorical data such as age group, Gender, etc.
- Chi Square: This was used to find relationships between the variable within the objectives and demographic information
- Mann Whitney : This was used to know the difference in price preference by gender

RESULT

AGE	
18-24	13.3%
25-34	77.8%
35-44	8.9%

GENDER	
Female	77.8%
Male	22.2%

LOCATION	
Yes	55.6%
No	44.4%

Demographic Details
